

A futuristic cityscape with advanced technology and flying vehicles. In the foreground, a large, dark, sleek vehicle with "CODOGNOTTO LOGISTICS & TRANSPORT" written on its side is visible. To its right, another similar vehicle is shown in flight, displaying a red circular logo with "CODOGNOTTO" text. The background features a dense cluster of tall, futuristic buildings and a body of water with several sailboats. The sky is filled with various flying vehicles, including a small white one in the upper center and a larger one in the lower right. The overall scene is set against a backdrop of a sunset or sunrise, with a warm orange glow on the horizon.

ABOUT US

Codognotto Group

“...has worked hard to become one of the most dynamic entities in the European Transport Industry, and so doing attracted attention for its strong growth, as well as for its will to innovate and develop. The core traits are the key to understanding the impressive growth that the group has reported over the last 15 years. Today the group is seen as one of the leaders of the industry, showing strength when faced by new challenges.”

*International Transport Journal, Maggio 2016

Our Mission

Be able to anticipate the future, developing advanced solutions. Basically, knowing the answers to questions the market hasn't asked yet.

Also, we want to represent the future of Logistics & Transport thanks to its dimension, experience, technology and digital soul.

We do things the right way

To improve the quality of our services, we obtained the following certifications:

ISO 9001 (Quality Management System), ISO 14001 (Environmental Management), OHSAS 18001 (Occupational Health and Safety), Carbon Footprint ISO 14064.

Authorizations on Customs activities

Codognotto has been awarded of the AEO Authorization (n. 19 1534).

We also hold the IATA license.

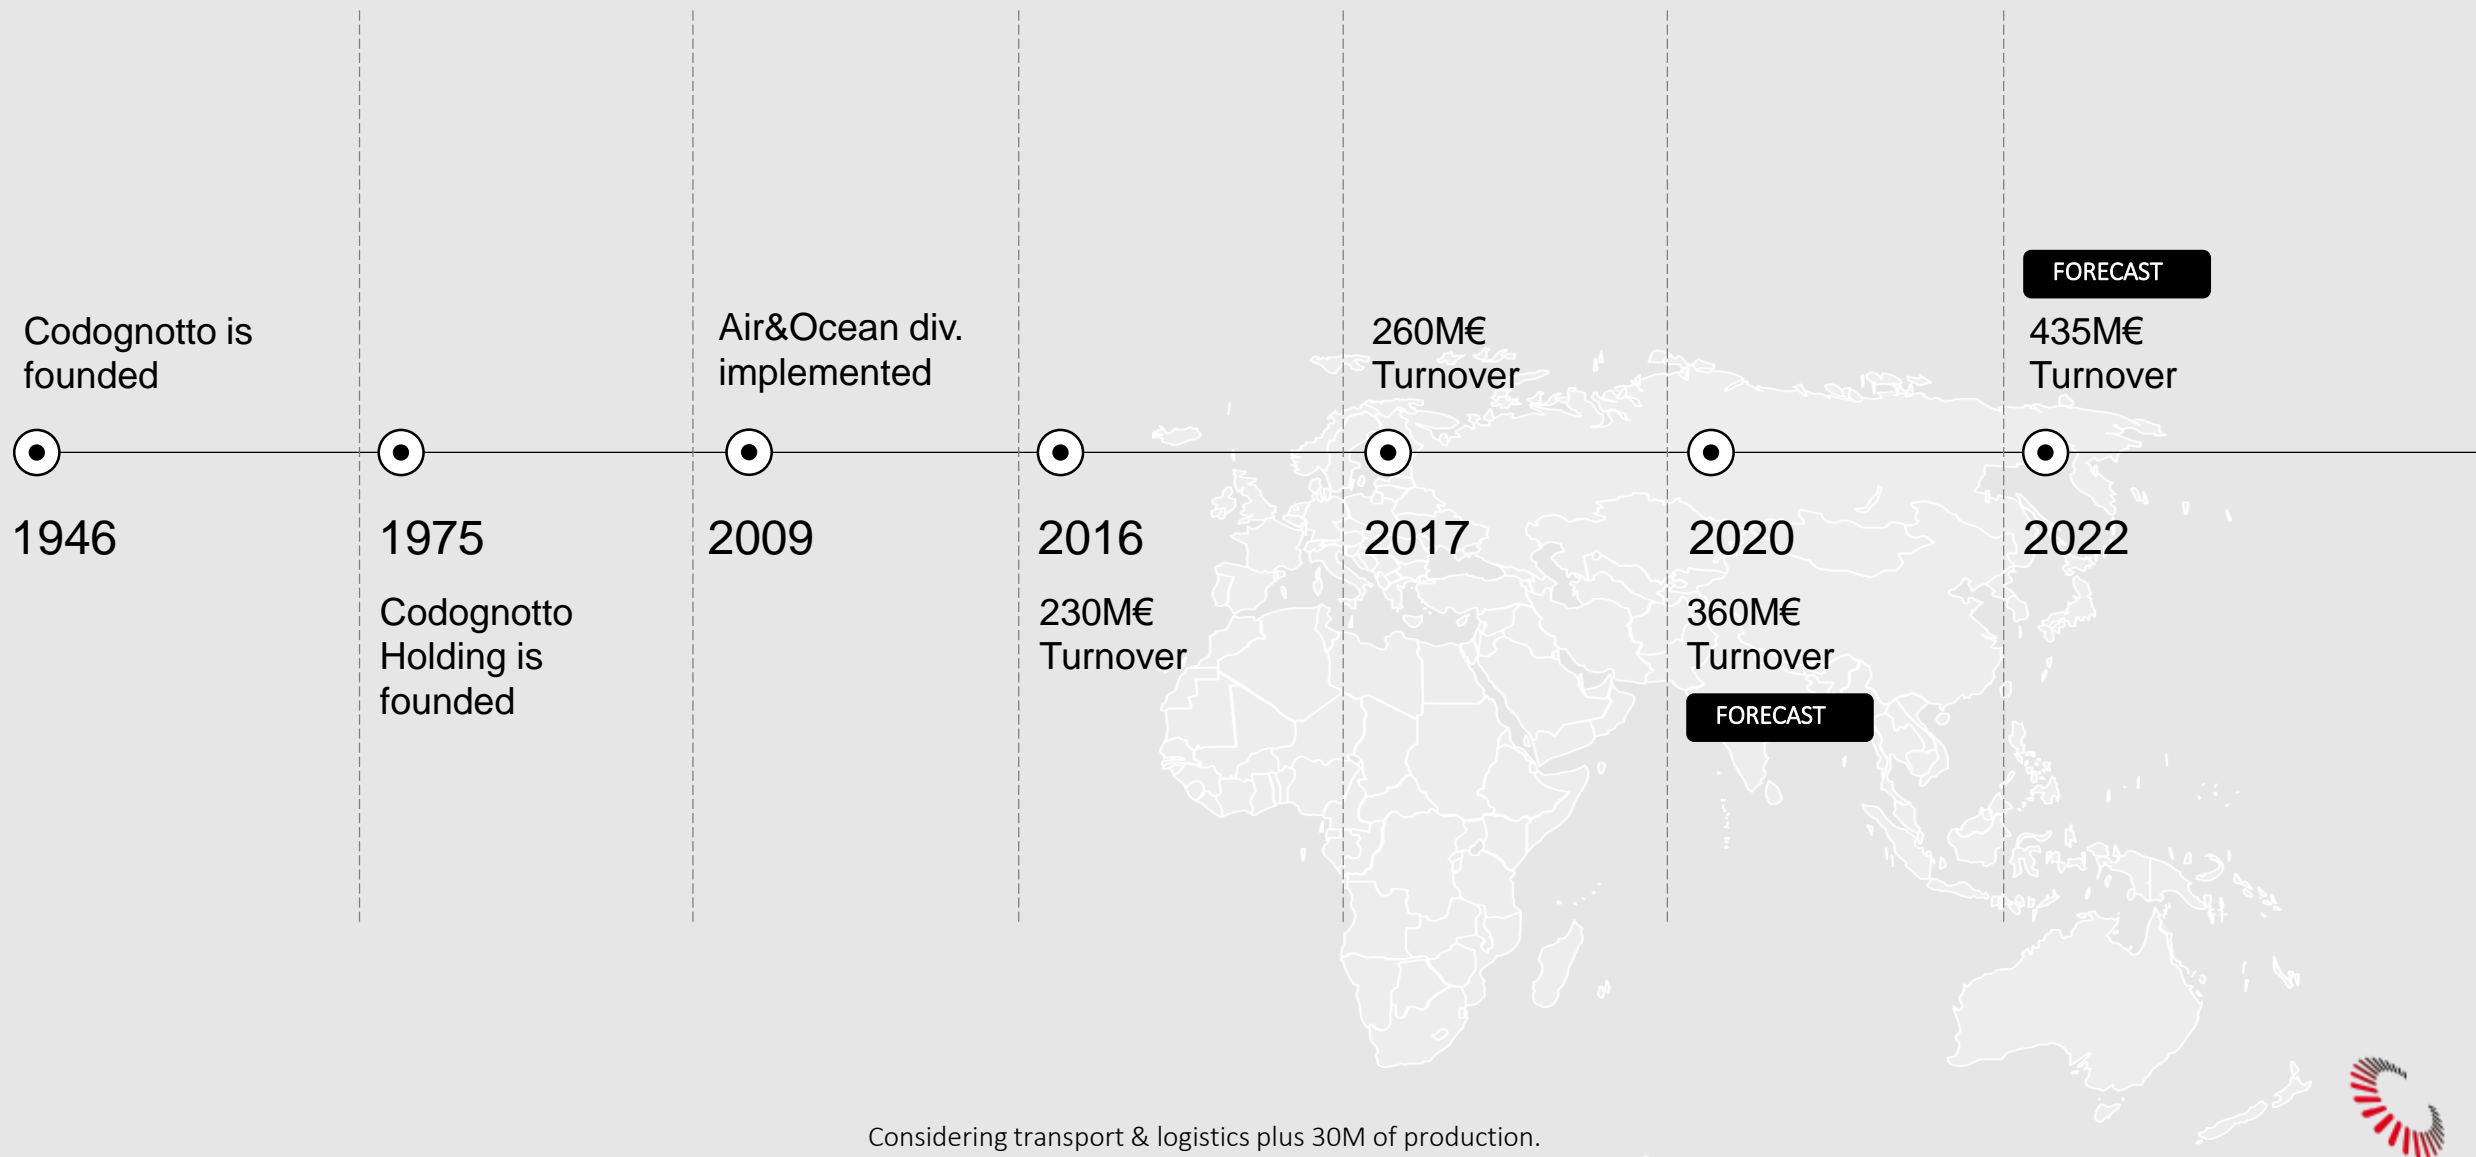

Supply chain security certification

Within 2019 (October), we plan to obtain the ISO28000 Supply Chain Security Certification.

A Continuous improving of Customs Services

The group significantly improved customs activities to offer its customers a high-profile service and to guarantee a proper management of customs procedures.

Customs – Italian offices

Gorizia branch	Beholder of authorization for clearance in a designated place
Gorizia Customs	Operational for import and export clearance, transit and registration of TIR carnet.
San Stino di Livenza branch	We could operate under export procedure in a designated place for all disposable goods.
Free Port of Trieste	We can handle clearance both for export and import procedures.
Ports of Northern Italy	We offer a complete assistance to our Clients for all the Ports located in the North of Italy

Customs.

Request for European Binding Tariff Inf. (EBTI)

Request for Binding information on the origin (IVO)

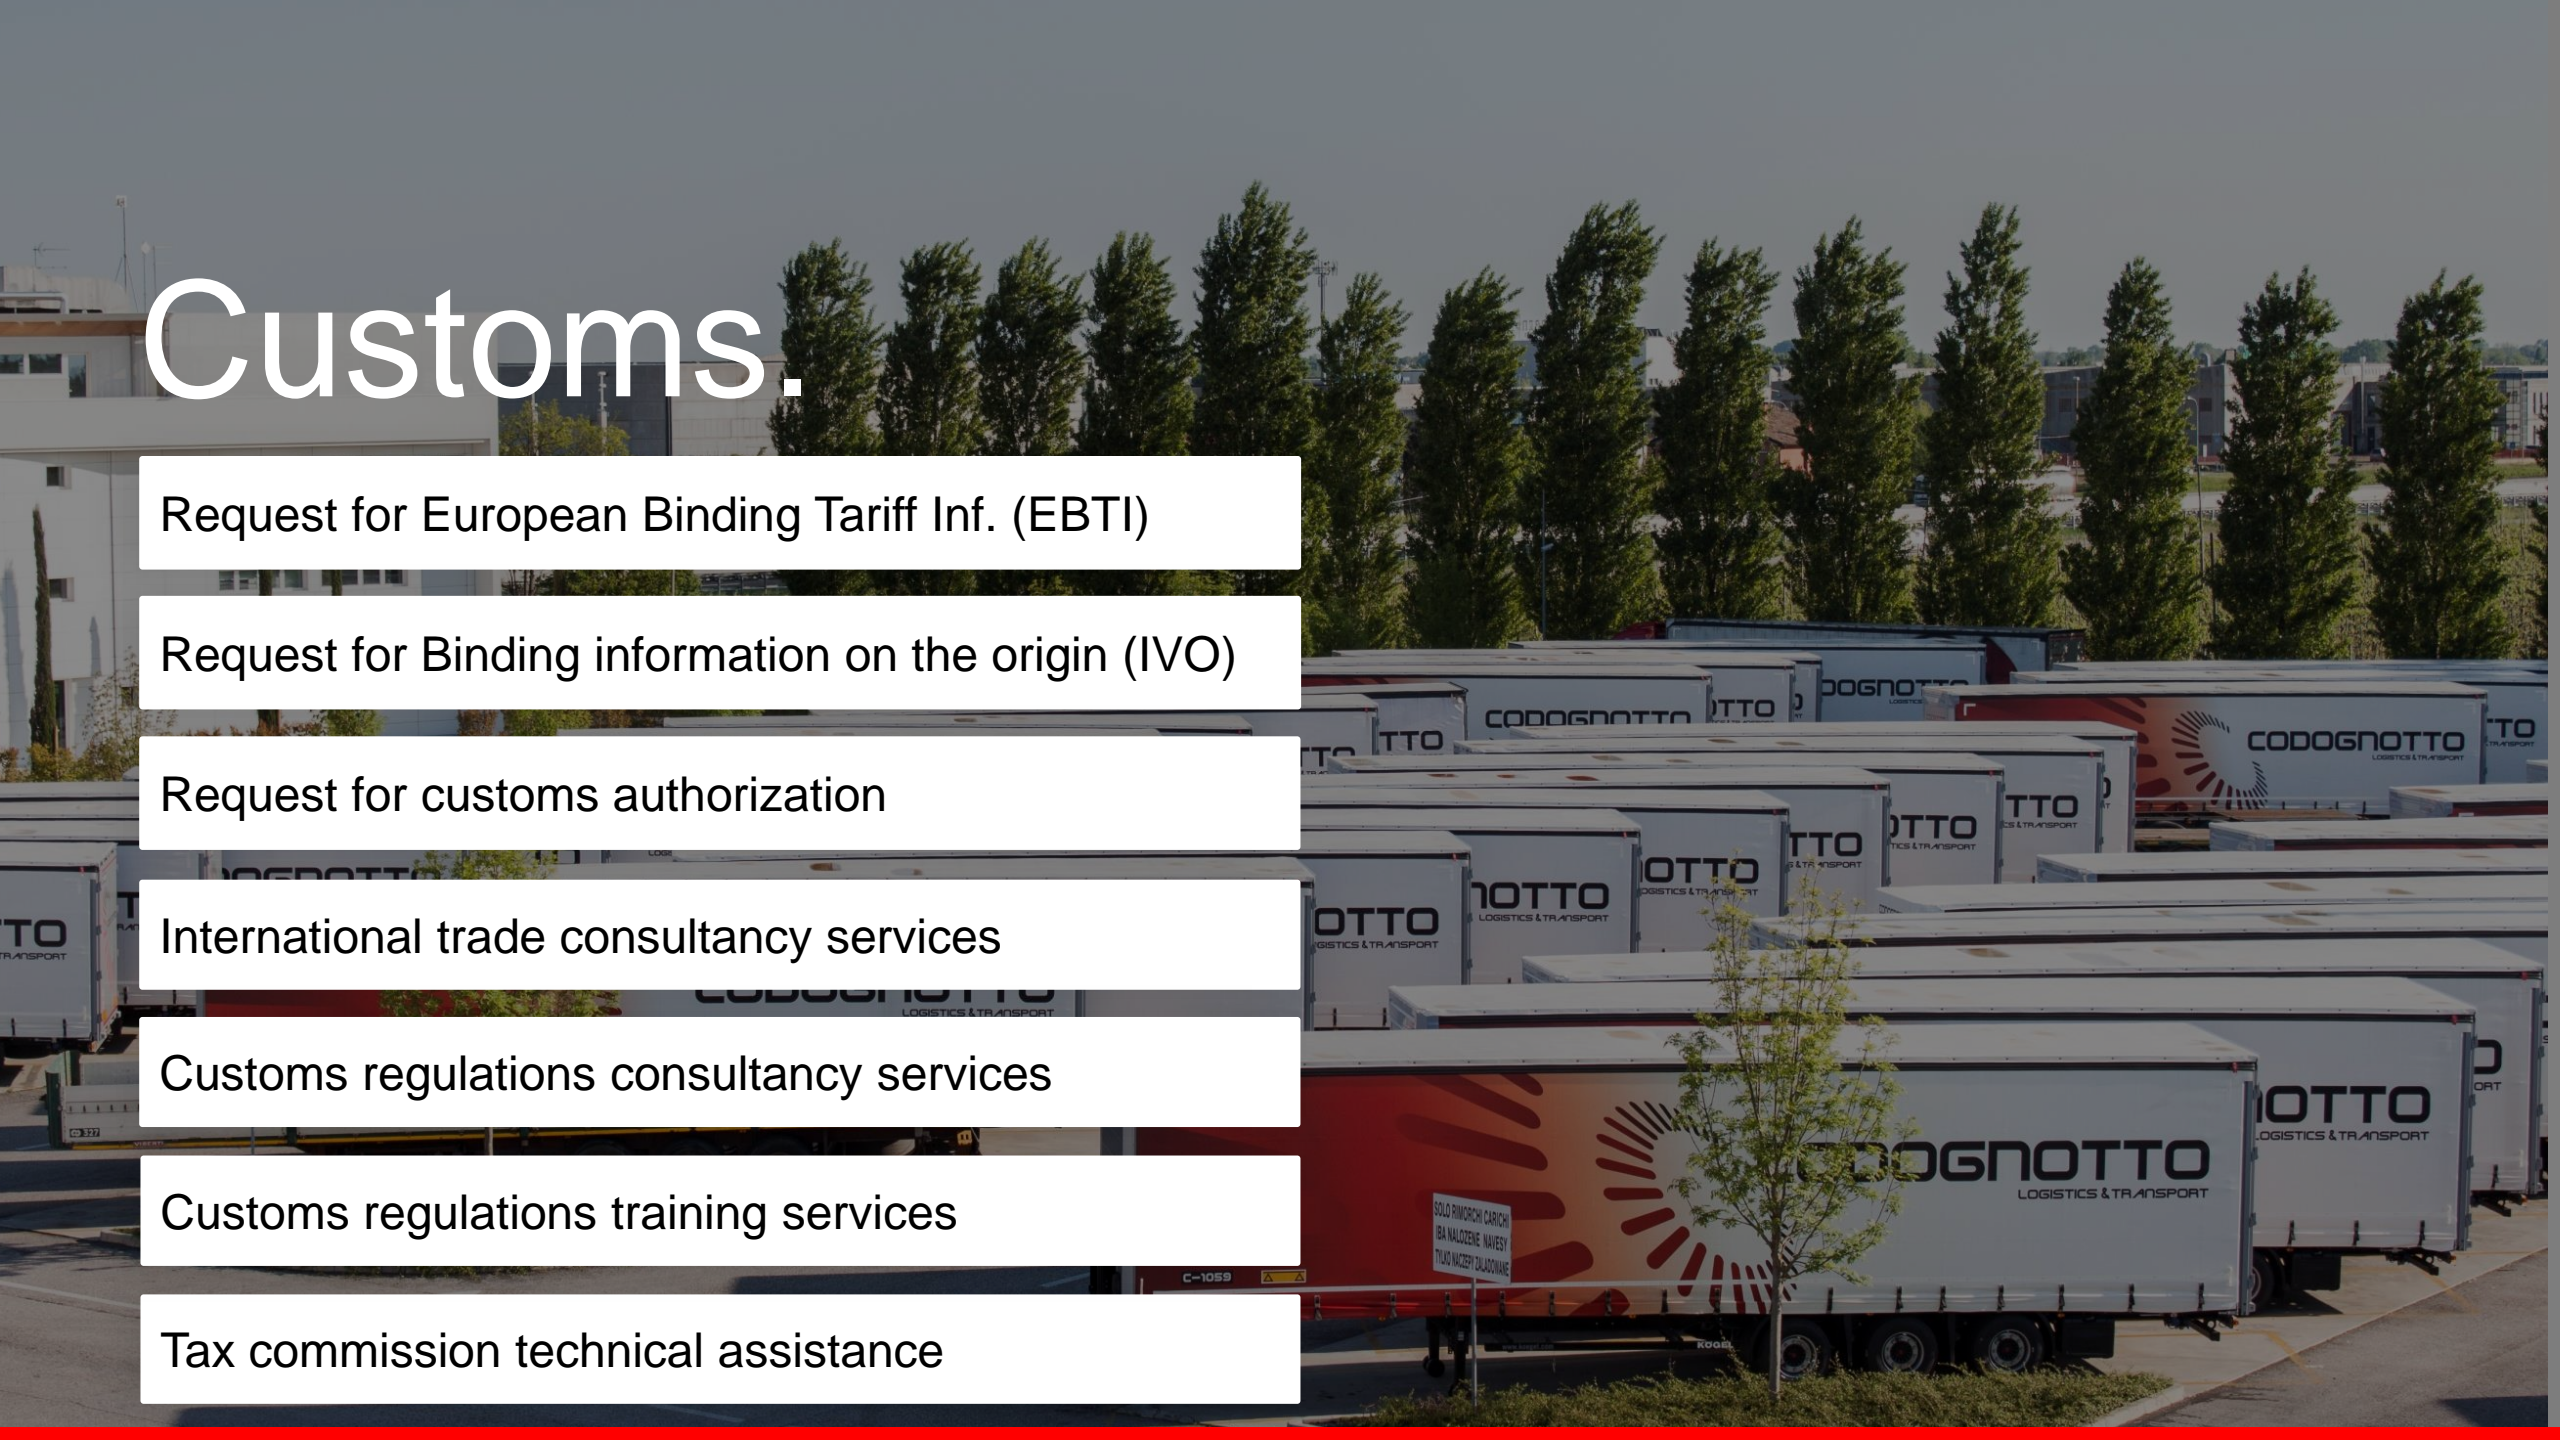

Request for customs authorization

International trade consultancy services

Customs regulations consultancy services

Customs regulations training services

Tax commission technical assistance

Export.

Single-operator clearance allows the exporter to constantly keep track of the goods exiting the EU territory and avoid fines related to the MRN follow-up.

Assistance and consultancy services for all customs activities, including a verification on compliance with customs procedures to avoid delays and issues with your customers.

Import.

We would need to verify national and European tax services, including all certifications and documents needed for the goods to be released for consumption.

Our aim is to plan customs activities together with the customer, guaranteeing a deep analysis on applicable customs procedures.

This kind of management is helpful to save money and time, thanks to the recent European regulation 953/2013.

Private Customs Warehouse.

Located in via dell'Industria 25, Gorizia

Using our private customs warehouse would allow companies to have an easy and fast access to goods entering the country from abroad, avoiding custom duties and VAT until needed.

Tax Warehouse (VAT)

Since we are recognised as tax warehouse, our customers could enjoy some benefits on all goods stored or collected.

With a tax warehouse system, the subject does not have to pay VAT related to import, avoiding an early VAT recovery and a stay on account.
